

THE CALENDAR OF ABBA'S LUMINARIES

We are Children of the Light and in us is NO Darkness

Spiritual darkness is the state of a person who is living apart from our Abba Father. Isaiah, in prophesying of the Messiah, speaks of a deep spiritual darkness that enveloped the people: "The people walking in darkness have **seen a great light**; on those living in the land of deep darkness a light has dawned" (Isaiah 9:2). This passage reappears in the New Testament, in Matthew 4:16, to announce that those who have come to know the God of Israel through His Son are the ones who have been delivered from spiritual darkness and now walk in the light of God's life.

The apostle John taught that Yahweh is light: "This is the message we heard from Yeshua and now declare to you: **Yahweh is light, and there is no darkness in him at all**. So we are lying if we say we have fellowship with Yahweh but go on living in spiritual darkness; we are not practicing the truth" (1 John 1:5–6, NLT). And Yeshua declared that He is the light of the world: "**I am the light of the world**. Whoever follows me will never walk in darkness, but will have the light of life" (John 8:12).

The darkness of separation from Yahweh is overcome through His son: "In him was life, and that life was the light of all mankind. The light shines in the darkness, and the darkness has not overcome it" (John 1:4–5).

From the moment Adam and Eve sinned, humans have lived in a fallen world. All people are born in a fallen state of sin and separation from Yahweh. Until a person is reborn of Yahweh's Ruach (Spirit), they live in spiritual darkness. Sin darkens our understanding and destroys our spiritual sight, cloaking us in deep darkness: "But the way of the wicked is like deep darkness; they do not know what makes them stumble" (Proverbs 4:19). Moses compares this state of sin and disobedience to groping about like "a blind person in the dark" (Deuteronomy 28:29). One of Job's friends speaks of those who are lost in spiritual darkness: **"Darkness comes upon them in the daytime; at noon they grope as in the night" (Job 5:14).**

Living in rebellion to Yahweh and His will is equivalent to living in spiritual darkness. After salvation, believers become beacons of the spiritual light of Yahweh: **For you were once darkness, but now you are light in the Messiah. Live as children of light" (Ephesians 5:8).** Those who are in Yeshua have been rescued from the kingdom of darkness: **"He has delivered us from the domain of darkness and transferred us to the kingdom of his beloved Son" Colossians 1:13**

Those who reject Yahweh face eternal separation from Yahweh in "blackest darkness" (Jude 1:4–13).

Unbelievers live in spiritual darkness because the satan, has blinded their minds. They cannot see the glorious light of the gospel.

Spiritual darkness refers to **all that is in opposition to the light of Yahweh's love in His Son Yeshua.** The good news that Yeshua brings to this world is that **His light—His life-giving Ruach (Spirit)—floods light and life into the spiritual darkness of the sinner's heart.**

The One who opened the eyes of the blind can also bring us out of spiritual darkness. No matter how deep the darkness, the light of God's love and truth overcomes every sin that separates us from the ONE TRUE GOD.

This information is shared in the hope that it will bring unity to the body of the true set apart believers in these last days. There has been much confusion, pride and discord with His body of believers in these Last Days in regards to the form and comprehension of His Set apart calendar as we have all individually been seeking to worship our Father in Ruach (Spirit) AND in truth. We must seek not to be right but rather to seek out only His truth provided to us by the Ruach. We believe that we have been granted just a section of truth to share as a strategic key in unlocking the fullness of our Father's amazing celestial timepiece in the shamayim (heavens).

We are the vessels only in sharing this first part of a much larger message. We look forward to our brothers and sisters as members of the One body of our messiah Yahshua Hamashiach working together in unity to complete the understanding of where we currently are positioned in these Last Days based on this information as a new starting point. We encourage you to share generously and freely in unity and love.

All thanks to our Abba Father. Our prayer is that He will continue to reveal the magnificent works of His hands to you, our beloved brothers and sisters as you continue to study to show yourself approved in this very important matter and may He lift the veils of blindness from our eyes just as He did in the Scriptures for those who had faith, believed in Him and chose to give up everything in order to follow the ancient paths of Yahweh

2 Timothy 2:15 Do your utmost to present yourself approved to Elohim, a worker who does not need to be ashamed, rightly handling the Word of Truth.

Proverbs 25:2 It is the esteem of Elohim to hide a matter, And the esteem of sovereigns to search out a matter.

Psalms 90:12 Teach us to number our days and let us bring the heart to wisdom.

Psalms 19:1 The heavens declare the glory of Yahweh; and the firmament shows His handiwork.

THE KEY – REMOVE THE LEAVEN FIRST AND SEEK ONLY THE LIGHT

We believe that the key that has been missing in the unlocking of the biblical calendar is that we were all continuing to mix pagan with Yahweh's Qodesh in our research and seeking of the true calendar and dates to line up with the feasts and shabbats that we are called to keep until everlasting. We have been in spiritual darkness in regards to the calendar and must seek to follow only after the light.

Our Fathers calendar is Qodesh and in it there can be no pagan concepts in order to understand its truth. We have all continued to try and line Abba's calendar up alongside the pagan gregorian calendar. We have been holding the gregorian calendar as the single source of truth and when Yahweh's calendar does not match the gregorian calendar, we deem it incorrect.

We always believed that when the true calendar was found it would be SIMPLE and that no interpretation or guessing would be required. That a child could understand it. That it would not be reliant on the internet or man or checking the growth rate of wheat in a country remote from us etc. That we could look up in the skies and see His wondrous time clock in the shamayim and know the time, day and season with no mammon from man to deceive or distort the truth.

We knew that it would be so perfect that immediately without any conflict all who truly seek Him in spirit and truth would recognize it as truth if indeed they are humble and have the veils removed from their eyes.

Luke 16:13

13. "No servant is able to serve two Yahwehs, for either he shall hate the one and love the other, or else he shall cling to the one and despise the other. You are not able to serve Elohim and mammon."

The scriptures make it clear to us that He wants us to truly come out the world my people. He wants us to remove the leaven (pagan doctrines and concepts) from our lives completely and to never mix them. This is the essence of so much of the Torah instructions – not to mix the living with the dead –the clean with the unclean -the sin with the Qodesh.

So, as you read through this document, please keep this front of mind. Yahweh's calendar is Qodesh- set apart and in it there must be NO leaven...no sin...no pagan concepts AT ALL. We cannot serve two masters. We must love and cling to one and hate and despise the other. We cannot mix them. We must choose on this day whom we will serve, leave one and cling to the other. Where your treasure is there your heart will be also.

When you desire to truly live a set apart and Qodesh life regardless of the cost, then the calendar and truth contained in this document we believe will bring joy and unity to the body of set apart believers...His Bride...the Remnant.

Revelations 18:4-5

4. And I heard another voice from the shamayim saying, "Come out of her, My people, lest you share in her sins, and lest you receive of her plagues. 5. "Because her sins have piled up to reach the shamayim, and Elohim has remembered her unrighteousness."

A side note for those still clinging to the ways of man and the 'canon' of only 66 books man endorsed books....

Jubilees, Edras, Enoch and Yashar – extra biblical books along with many others were directly referenced in the scriptures. The scriptures were originally on scrolls without chapters and names. These were added by men who also decided which scrolls to include and not to include. Men. Not God.

These books have been directly removed by 'churches' and men who have done so to hide the truth from us warning us against these books. They should definitely be included in the 'man's list of canon /acceptable books for us to read. The inclusion of them in your study provides all the answers and depth of understanding that often seems to be unclear or without the required witnesses in the basic 66 book canon. These we believe are the books that Yah told Daniel to seal up until the End Days.

This same group of men were also the same ones who decided that it was in their authority to change the sabbath day from its correct 7th day of full rest to the 1st day. The Sabbath was never changed from Saturday to Sunday in the scriptures. There are literally hundreds of references to it and our Messiah Yeshua also kept it. Do we not seek to walk in His paths? Sunday became the day of rest and worship for mainstream Christianity through the Catholic Church claiming authority to overrule Scripture, through pagan influences and through anti-Semitism.

The council of caodicea in A.D. 365 decided: "Christians must not judaize by resting on the Sabbath, but must work on that day, rather honouring the Lord's Day, and, if they can, resting then as Christians. But if any shall be found to be judaizers, let them be anathema from Christ" (Canon XXIX).

So, keeping the Sabbath on Saturday was considered "judaizing," which was considered a great evil. Constantine, at the Council of Nicaea in A.D. 325, was reported by the historian Eusebius as saying, "It appeared an unworthy thing that in the celebration of this most holy feast [Passover] we should follow the practice of the Jews Let us then have nothing in common with the detestable Jewish crowd."

Thus, since Christians wanted nothing to do with Jews, they wanted to have a different day for rest and worship: Sunday. They are in GRAVE error and danger. The keeping of the Sabbath is a **sign** of the set apart true believers.

Verses where Enoch is referenced in the New Testament as an example:

- Matt 5:5 = E 5:7
- Matt 19:28 = E 108:12
- Matt 19:29 = E 40:9
- Matt 26:24 = E 38:22
- Luke 6:24 = E 94:8
- Luke 16:26 = E 22:9-11
- John 4:14 = E 48:1
- John 5:22 = E 69:27
- John 12:36 = E 108:11
- John 14:2 = E 45:3

BACK TO THE BEGINNING - WHO IS THE LEADER WE SHOULD FOLLOW TO NUMBER OUR DAYS?

Genesis 1:14-19

14. And Elohim said, "Let lights come to be in the expanse of the shamayim to separate the day from the night, and let them be for **signs** and **Appointed times**, and for **days** and for **years**. 15. And let them be for lights in the expanse of the shamayim to give light on the earth". And it came to be so. 16. And Elohim made two great lights; the **greater light to rule the day, and the lesser light to rule the night, and the stars**. 17. And Elohim placed them in the expanse of the shamayim to give light on the earth 18 and to **rule** over the day and over the night, **and to SEPARATE the light from the darkness**. And Elohim saw that it was good. 19 And there came to be evening and there came to be morning, the fourth day.

Jubilees 2:9-11

8. And on the **fourth** day He created the sun and the moon and the stars, and placed them in the expanse of the shamayim, to give light upon all the earth, to rule over the day and the night, and divide the light from the darkness. 9. And Elohim appointed the sun to be a great sign on the earth for days and Shabbathoth and for months and for Festivals and for years and for Shabbathoth of years (shemitahs) and for Yobelim Jubilees) and for all the seasons of the years. 10. And it divides the light from the darkness **FOR GOOD**, that all matters may thrive, sprout and grow on the earth. These **THREE** he made on the **fourth day**.

Hanok (Enoch) 72:1-4

1. The book of the courses of the lights of the shamayim, the **relations** of each, according to **their classes, their dominion** and **their seasons**, according to their **names** and **places of origin**, and according to their **months**, which Uriel, the Qodesh messenger, who was with me, who is their guide, showed me; and he showed me **all their laws** exactly as they are, and how it is with regard to all the years of the world and **UNTO EVERLASTING**, till the new creation is accomplished which **endures till everlasting**. 2. And this is the **FIRST** law of the lights: the **light, the Sun** has its rising in the **eastern** portals of the shamayim, and it's going down in the western portals of the shamayim. 3. And I saw **six portals in which the sun rises, and six portals in which the sun goes down** and the moon rises and goes down in these portals, and the leaders of the stars and those whom they lead: six in the east and six in the west, and all following each other in accurately corresponding order: also, many windows to the right and left of these portals. 4. And first there goes forth the **great light, named the sun**, and its circumference is like the circumference of the shamayim, and he is quite filled with illuminating and heating fire.

Should we not start with the **FIRST LAW – the LAW OF THE SUN** as per Hanok 72:2. The sun is regular and without change unto everlasting so a great place to start and put down our roots and draw the line in the sand so to speak. We are also told it is the GREAT Light so felt we should follow the GREAT light to begin and not the lesser light of the moon which was equal with the sun but digressed and was made lower. The moon has many scriptural references as to it not being regular, consistent and going off course. Why not just keep it simple and follow the Great Light for illumination in our paths? The moon is started to be for 'seasons'. We believe it also to be for Shmita's and Jubilees in conjunction with the stars.

Enoch 74: 12 And the **SUN and the stars** bring in all the years exactly, so that they do not advance or delay their position by a single day unto everlasting: but complete the years with perfect justice in three hundred and sixty-four days.

Enoch 74:4-5 And in certain months she alters her going down and in certain months she pursues **her own peculiar course**. In two months, the moon goes down with the sun in those 2 middle portals the third and the fourth.

2 Esdras 6:45-46 45. "on **the fourth day** You commanded that the sun should shine, and the moon gives us light, and the stars should be in order, 46. And commanded them to do service to man, who was to be made."

Therefore, the Genesis week count starts on the 4th day if we are to follow the sun as this is the day it was made- 3 days before Shabbat which is on the 7th final day of the week count.

WHERE DOES THE COUNT START?

Hanok 72:5-8

5. The chariot on which He ascends, the wind drives, and the sun goes down from the shamayim and returns through the north in order to reach the east, and is so guided that he comes to that portal and shines in the face of the shamayim.

6. In this way **he rises in the first month in the great portal, which is the fourth.**

7. And in that **fourth portal from which the sun rises in the first month are twelve window-openings**, from which proceed a flame when they are opened in their season.

8. When the sun rises in the shamayim, he comes forth through that **fourth portal thirty mornings** in succession, and goes down **exactly in the fourth portal** in the west of the shamayim.

The above we believe clearly indicates that the calendar week count must start in the fourth portal or gate as described clearly in Enoch. This is also referred to as the GREAT portal which seems a perfect description for where the GREAT light begins its journey. It is also a larger wider gate when seen on programs such as Stellarium showing the movement of the luminaries.

Genesis 1:19 clearly also states that the Great lights were created on Day 4 in the creation week count, and this is a perfect witness that the count needs to start in Gate/ Portal 4 on Day 4.

WHEN DOES THE COUNT START?

There are several points to note here that we believe has led to the error resulting in most people having already celebrated Pesach (Passover) this year – almost a month too early.

Please first read the below scriptures and then look at the visual diagram we have prepared to show these scriptures in action in the calendar beginning with Day one in Gate 4.

Please note very importantly that it goes into Gate 4 TWICE in the year, at the start of the year in the 1st month for 30 days and also in the 6th month for 31 days. The calendar is actually a mirror image of itself between the first half and the second half with Gate 4 in the middle on the day the luminaries were made.

Hanok 72: 9-37

9. And during this period the day becomes daily longer and the night, nightly shorter to the thirtieth day.

10. And on that day the day is longer than the night by a ninth part, and the day amounts exactly to ten parts and the night to eight parts.

11. And the sun rises from that **fourth portal**, and goes down in the **fourth** and returns to the fifth portal of the east thirty mornings, and rises from it and goes in the fifth portal.

12. And then the day becomes longer by two parts and amounts to eleven parts, and the night becomes shorter and amounts to seven parts.

13. And it returns to the east and enters into the sixth portal, and rises and goes down in the sixth portal thirty-one morning on **account of its sign.**

14. On that day the day becomes longer than the night, and the day becomes double the night, and the day becomes twelve parts, and the night is shortened and becomes six parts.

15. And the sun mounts up to make the day shorter and the night longer, and the sun returns to the east and enters into the sixth portal, and rises from it and goes down thirty mornings.

16. And when thirty mornings are accomplished, the day decreases by exactly one part, and becomes eleven parts, and the night seven.

17. And the sun goes forth from that sixth portal in the west, and goes to the east and rises in the fifth portal for thirty mornings, and goes down in the west again in the fifth western portal.

18. On that day the day decreases by two parts, and amounts to ten parts and the night to eight parts.

19. And the sun goes forth from that fifth portal and goes down in the fifth portal of the west, and rises in the fourth portal for thirty-one mornings on **account of its sign**, and goes down in the west.

20. On that day the day is **equalized** with the night, and the night amounts to nine parts and the day to nine parts.

21. And the sun rises from that portal and goes down in the west, and returns to the east and rises thirty mornings in the third portal and goes down in the west in the third portal.

22. And on that day the night becomes longer than the day, and night becomes longer than night, and day shorter than day until till the thirtieth morning, and the night amounts to exactly ten parts and the day to eight parts.

23. And the sun rises from that third portal and goes down in the third portal in the west and returns to the east, and for thirty mornings rises in the second portal in the east, and in the same way goes down in the second portal in the west of the shamayim.

24. And on that day the night amounts to eleven parts and the day to seven parts.

25. And the sun rises on that day from the second portal and goes down in the west in the second portal, and returns to the east into the first portal for thirty-one mornings, and goes down in the first portal in the west of the shamayim.

26. And on that day the night becomes longer and the amounts to the double of the day: and the night amounts to exactly to twelve parts and the day to six.

27. **And the sun has traversed the divisions of its orbit and turns again on those divisions of its orbit**, and enters that portal thirty mornings and goes down also in the west opposite to it.

28. And on that night, the night has decreased in length by a ninth part, and the night has become eleven parts, and the day seven parts.

29. And the sun has returned and entered into the second portal in the east, and returns on those, its divisions of its orbit for thirty mornings, rising and going down.

30. And on that day the night decreases in length, and the night amounts to ten parts and the day to eight.

31. And on that day the sun rises from that portal, and goes down in the west, and returns to the east, and rises in the third portal for thirty-one mornings, and goes down in the west of the shamayim.

32. On that day the night decreases and amounts to nine parts, and the day to nine parts, and the night is **equal** to the day and the year is exactly as to its days **three hundred and sixty-four**.

33. And the length of the day and of the night, and the shortness of the day and of the night arise – through the course of the sun they are separated.

34. So it comes that its course becomes daily longer, and its course nightly shorter.

35. And this is the law and the course of the sun, and its return as often as he returns sixty times and rises – the **great light**, which is named the sun, **forever and ever**.

36. And that which rises is the great light, and is so named according to its appearance, according as Yahweh commanded.

37. **As he rises, so he goes down** and **does not decrease**, and **does not rest**, but **runs day and night**, and its light is sevenfold brighter than that of the moon, but as regards size, they are both equal.

See below a digram we have completed showing the details for the different gates/ months/ season as described in Enoch 72.

The blue ones are listed in Enoch 72 as SIGNS. More on the meaning of these later.

There are 6 gates in total repeated for the 12 months of the year. The year starts on Gate 4. There is then 18 parts for each day not 24 parts/ hours as on the pagan clock we use. There is 6 parts less on the clock of Yahweh as described in Enoch 72 and outlined below.

The different QTY parts of day versus night listed below are different depending upon the time of the year/ season and location. For example Month 6 and Month 12 you will notice have equal parts day and night. This represents either of the two times during a year when the sun crosses the celestial equator and when the length of day and night are approximately equal; the vernal equinox or the autumnal equinox.

There are two annual equinoxes, the *vernal*, which falls in the spring in the Northern Hemisphere, namely, on the 21st of March according to the gregorian calendar this year, and the *autumnal*, which falls in the autumn, namely, on the 21st of September. Conversely the longest night occurs on Dec. 21st in the Northern Hemisphere and June 21st for the shortest day on the pagan Gregorian calendar and are called the solstices.

All of these are easily seen on the graph below – the 2 equal parts months is the equinox, and the shortest day/ night part is the solstice on the pagan calendars. On Yahweh's calendar tho we go by the sun and not the pagan equinox/ solstices. The importance of not tagging it to an actual gregorian date is that we are to 'watch' the skies to ensure the sun is moving from one gate to another and it is in this manner only that we number our days by the light only.

12 parts Day is the maximum in any gate and only appears in the 6th Gate on the 12th month. Conversely the maximum 12 parts Night only appears in the 1st Gate on the 9th month. I believe that this 1st gate actually receives a total of 18 hours night (12 parts Night PLUS the extra 6 hours Night not included on an 18 part/ gate associated clock but included on our current 24 part/ gate Gregorian clock. This is explained further in our section where we discuss the Qodesh clock of Yah.

London UK / Glasgow Scotland is both very close to this with apparently 17 hours of darkness in the Dec solstice. This could potentially be close to 18 hours as their measurement of 'dawn' and 'sunset' times may be different to Yahweh's.

Of note is that the 1st and the 6th gates are the only unique gates that do not have a second gate with the same parts of Night versus Day.

ENOCH 72 OVERVIEW

MONTH ONE (1)	MONTH TWO (2)	MONTH THREE (3)	MONTH FOUR (4)
4TH GATE 30 DAYS RAM (pagan aries) DAY = 10 PARTS NIGHT = 8 PARTS	5TH GATE 30 DAYS pagan taurus DAY = 11 PARTS NIGHT = 7 PARTS	6TH GATE 31 DAYS SIGN - TWIN (Pagan gemini) DAY = 12 PARTS NIGHT = 6 PARTS	6TH GATE 30 DAYS pagan cancer DAY = 11 PARTS NIGHT = 7 PARTS
MONTH FIVE (5)	MONTH SIX (6)	MONTH SEVEN (7)	MONTH EIGHT (8)
5TH GATE 30 DAYS pagan leo DAY = 10 PARTS NIGHT = 8 PARTS	4TH GATE 31 DAYS SIGN -REV 12 Woman (pagan virgo) DAY = 9 PARTS NIGHT = 9 PARTS EQUAL PARTS DAY AND NIGHT	3RD GATE 30 DAYS SCALES (pagan libra) DAY = 8 PARTS NIGHT = 10 PARTS	2ND GATE 30 DAYS pagan scorpio DAY = 7 PARTS NIGHT = 11 PARTS
MONTH NINE (9)	MONTH TEN (10)	MONTH ELEVEN (11)	MONTH TWELVE (12)
1ST GATE 31 DAYS pagan sagittarius DAY = 6 PARTS NIGHT = 12 PARTS	1ST GATE 30 DAYS pagan capricornius DAY = 7 PARTS NIGHT = 11 PARTS	2ND GATE 30 DAYS pagan Aquarius DAY = 8 PARTS NIGHT = 10 PARTS	3RD GATE 31 DAYS The Great Fish (pagan pisces) NIGHT = 9 PARTS DAY = 9 PARTS EQUAL PARTS DAY AND NIGHT

Hanok 72 above states clearly that the 9 parts day/ 9 parts night (Gate 3 in Month 12) 'equinox' occurrence was not actually signifying the beginning of the year. Rather it is highlighting that the beginning of the new year actually falls within this period of 31 days which is in fact not the first month of the new year but rather still the 12th month (3rd Gate). This means that anyone starting their year by the equinox is actually close to a full month too early. (Enoch 72:31-32)

As an example, for this current year the program Stellarium shows on the 09/04/2023 a time after we all completed Pesach this year that the sun was still in the sign of the Great Fish (pagan pisces). The new year actually starts in the 4th gate (1st Month) and NOT the 3rd gate (12th Month). This highlights the situation that what has been believed to be the beginning based on equinox starting the new year is actually false. Following the Equinox is pagan we believe. Rather choose to be followers of the light/ sun.

9.4.23 Sun is still in pisces (The Great Large Fish) which is the 3rd gate and not in the 4th gate where the new year must start.

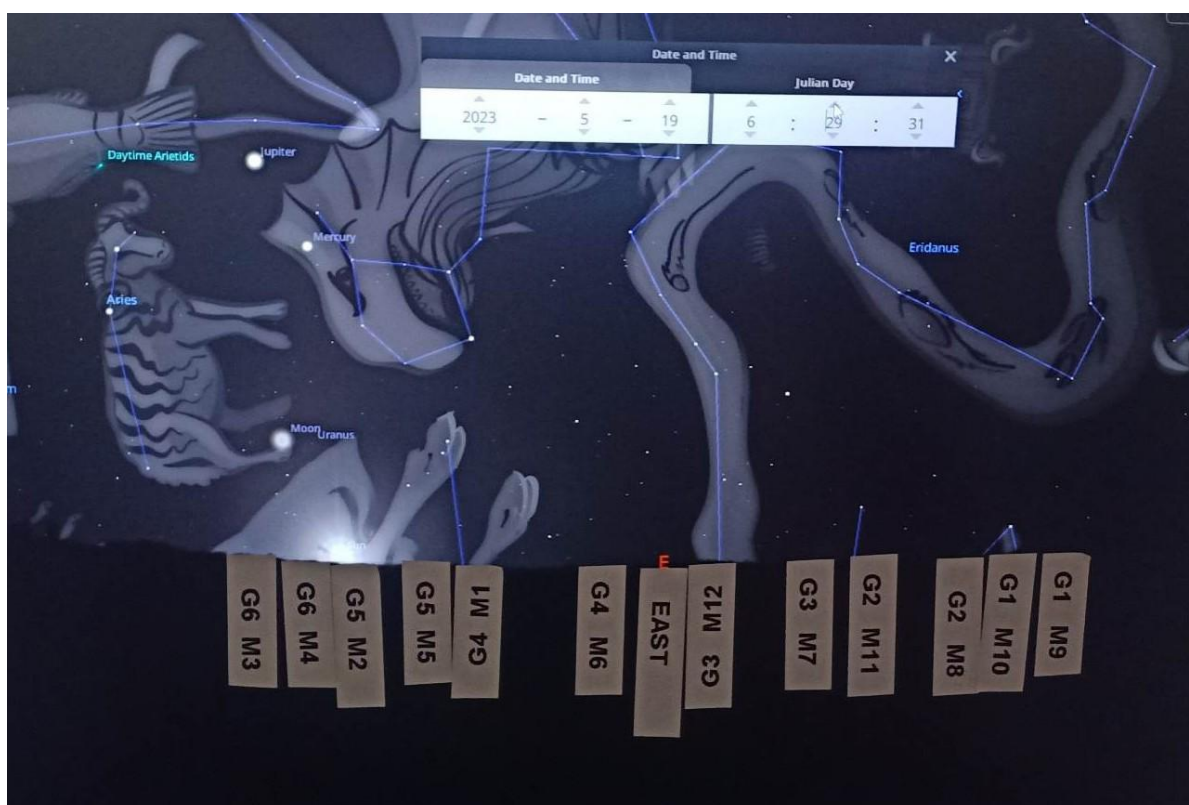

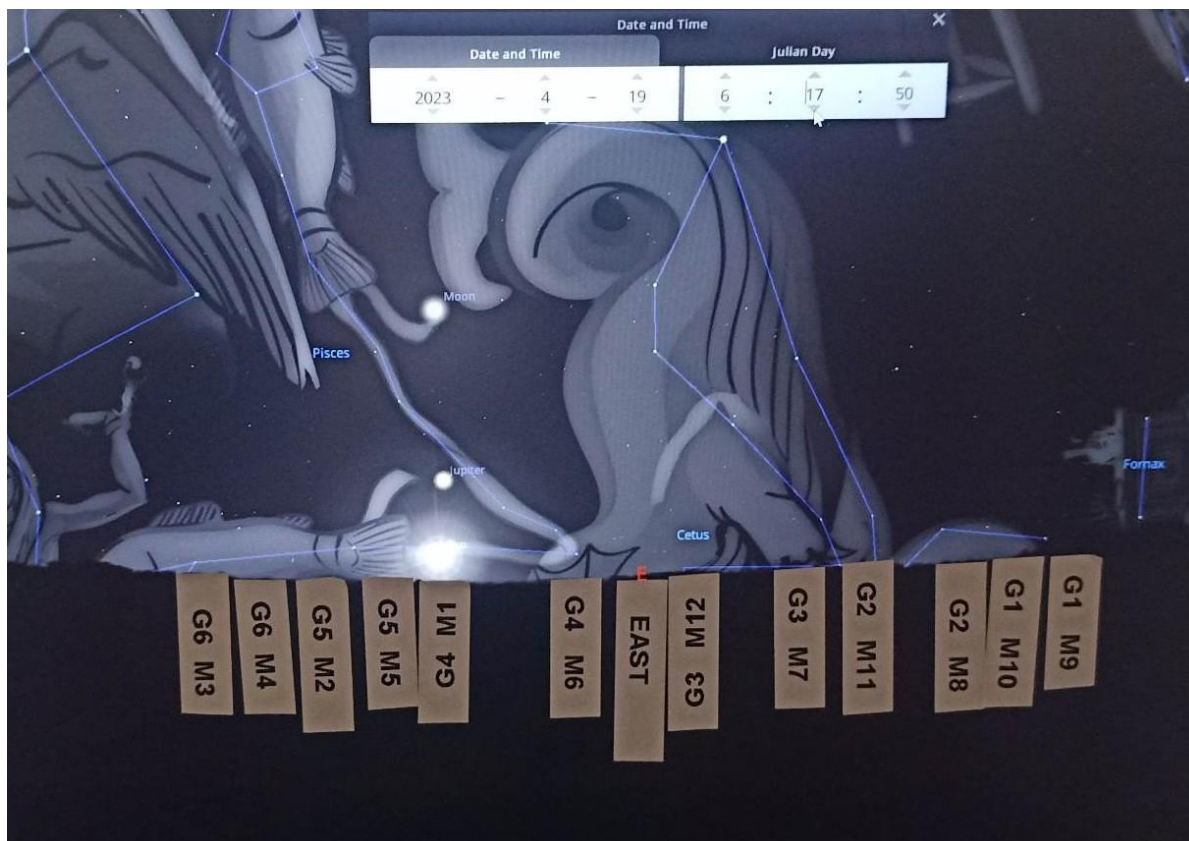

Please see below the sun in the 12 different monthly gates as per the Stellarium program to show you what it looks like. This can be easily seen and tracked in your own home each morning as the sun moves towards you and is clear on the horizon or with a sun dial. You will note that the date that most started their new year this year in was the month of March which is Gate 3. The 19.4.23 is when the sun is actually in the right gate and what we believe to be the first day of this new year. That would then have Passover on the 14th day of the first month which would be the 2.5.23.

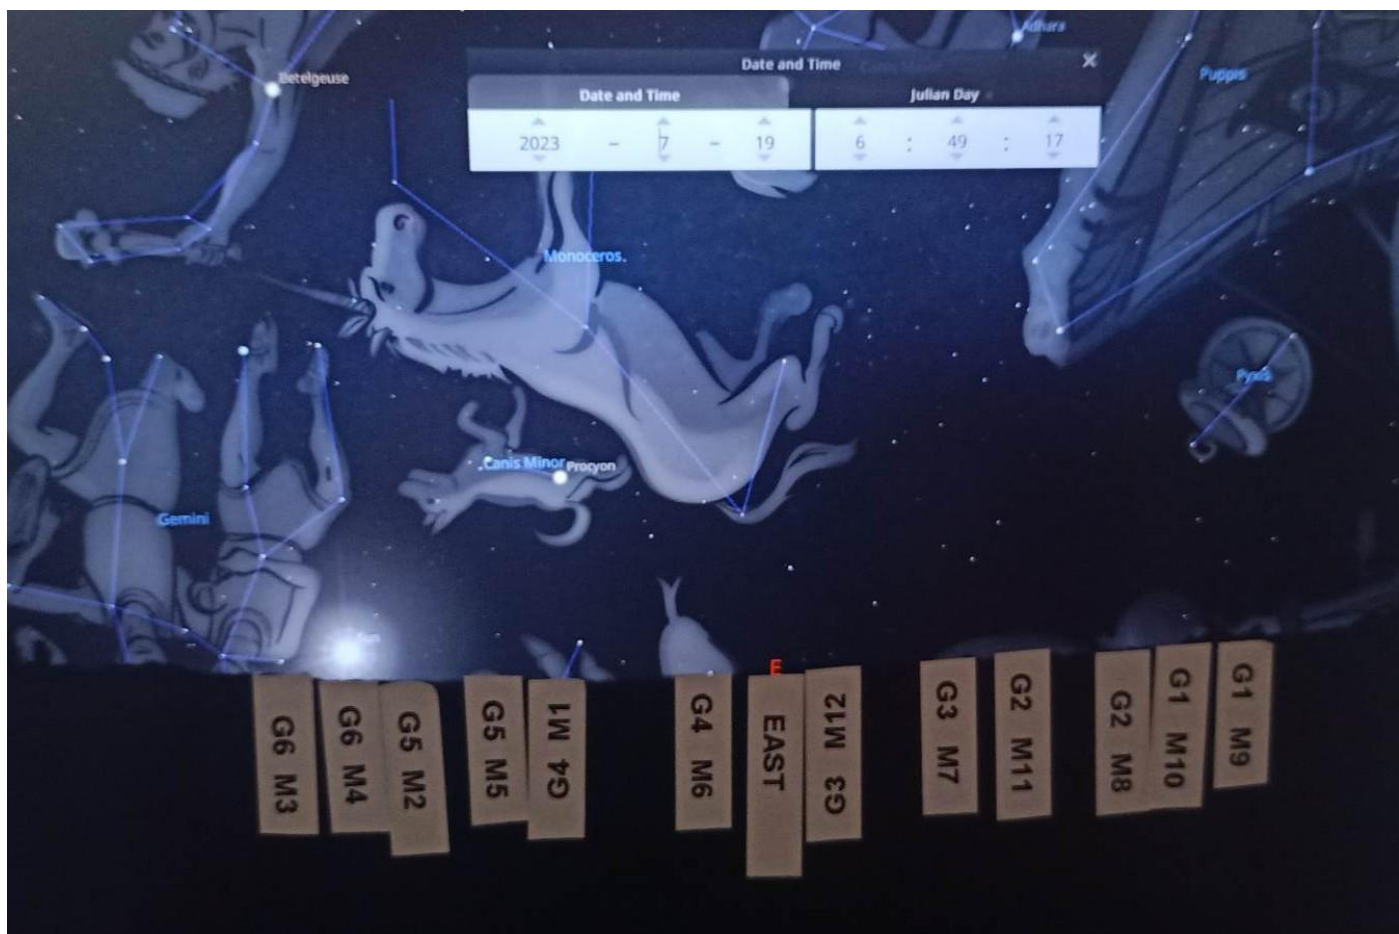

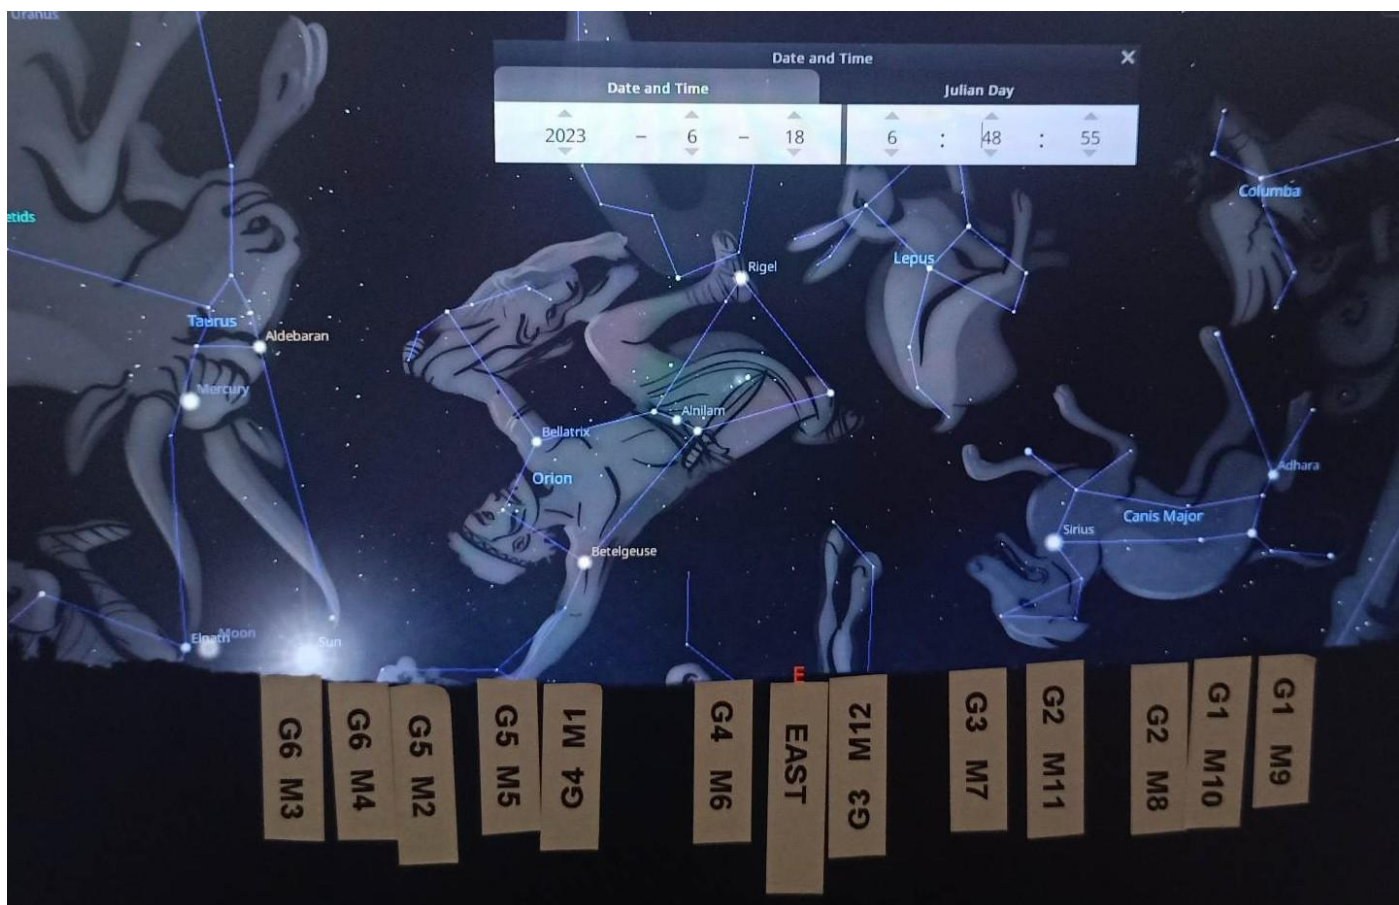

By following this method, we worked out the entire year and it is a perfect 7-day count. We did it for 100 years back and 10 years forward- perfect. No feast days fall on Shabbat days. No need to add or deduct or change days/ weeks etc. It just works.

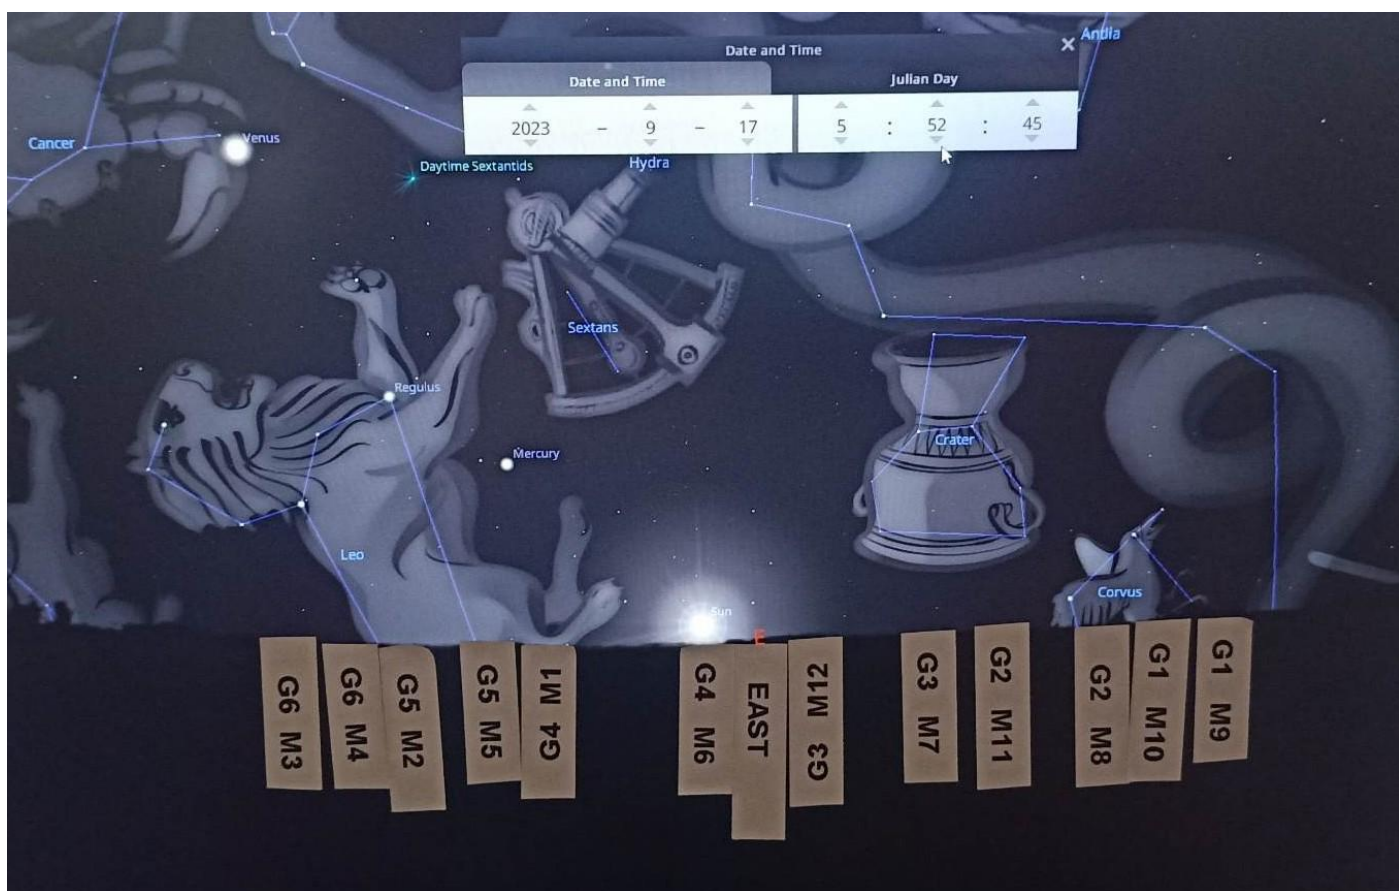

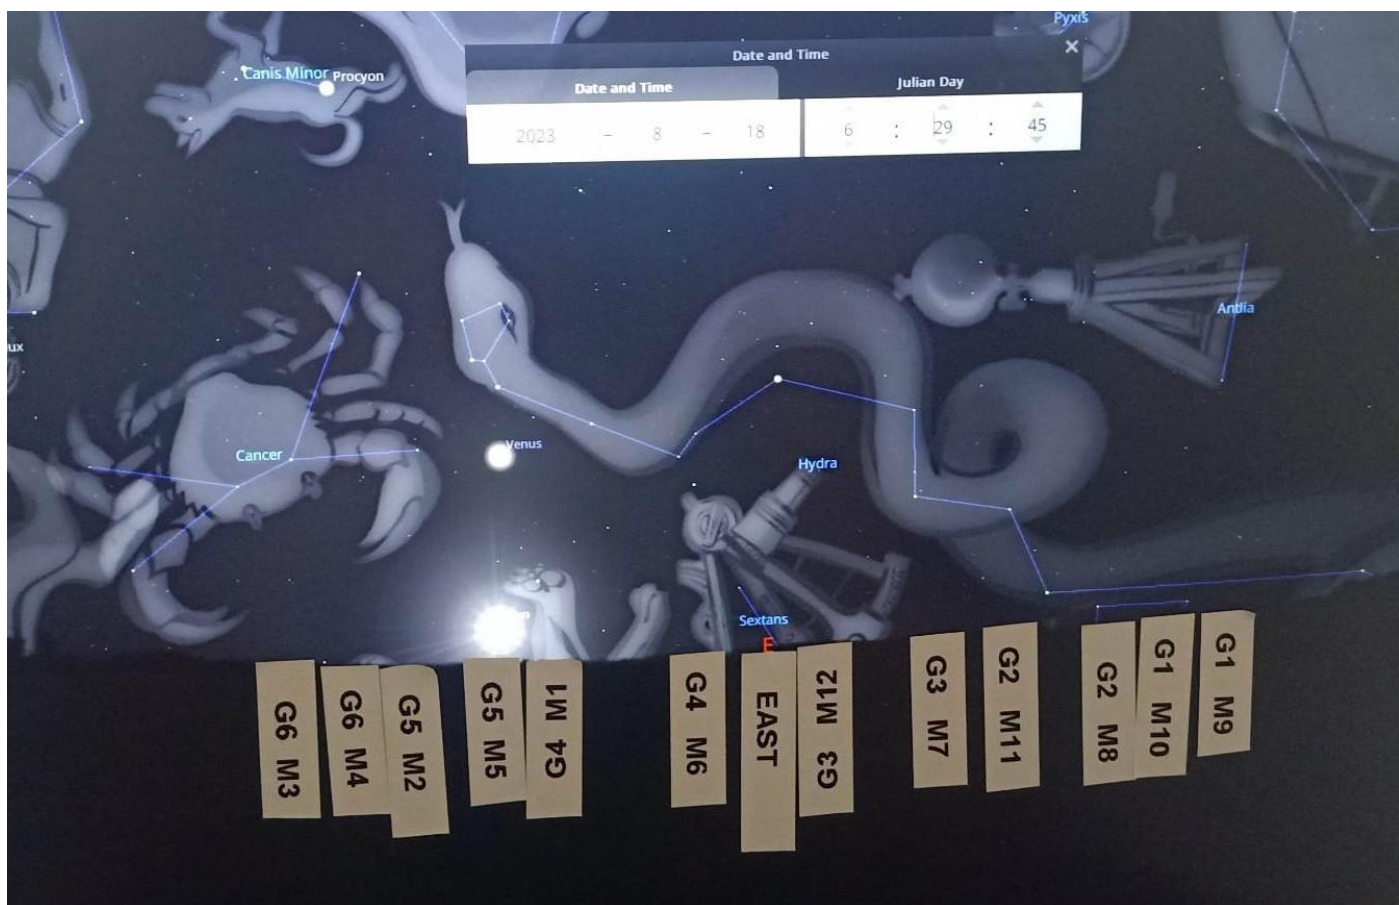

The Gregorian dates don't line up at the end of the year, however they are not supposed to line up. One is Qodesh and one is man made and pagan. Doing this process is EXACTLY what we are constantly told to do- keep a count of 364 days with 7-day continuous cycles. We are told to include the 4 intercalary days that are the first days of the month that each of the 4 different seasons begin in. These are commonly referred to as new moon days however we would prefer to just refer to them as Intercalary days as per the scriptures so Intercalary Day 1 (ID1).

Maybe perhaps consider taking our Abba Father at His Word and trusting our calendar to Him and just simply doing what He says – 364 days- never add or remove days and weeks and months- just like His scriptures- perfection.

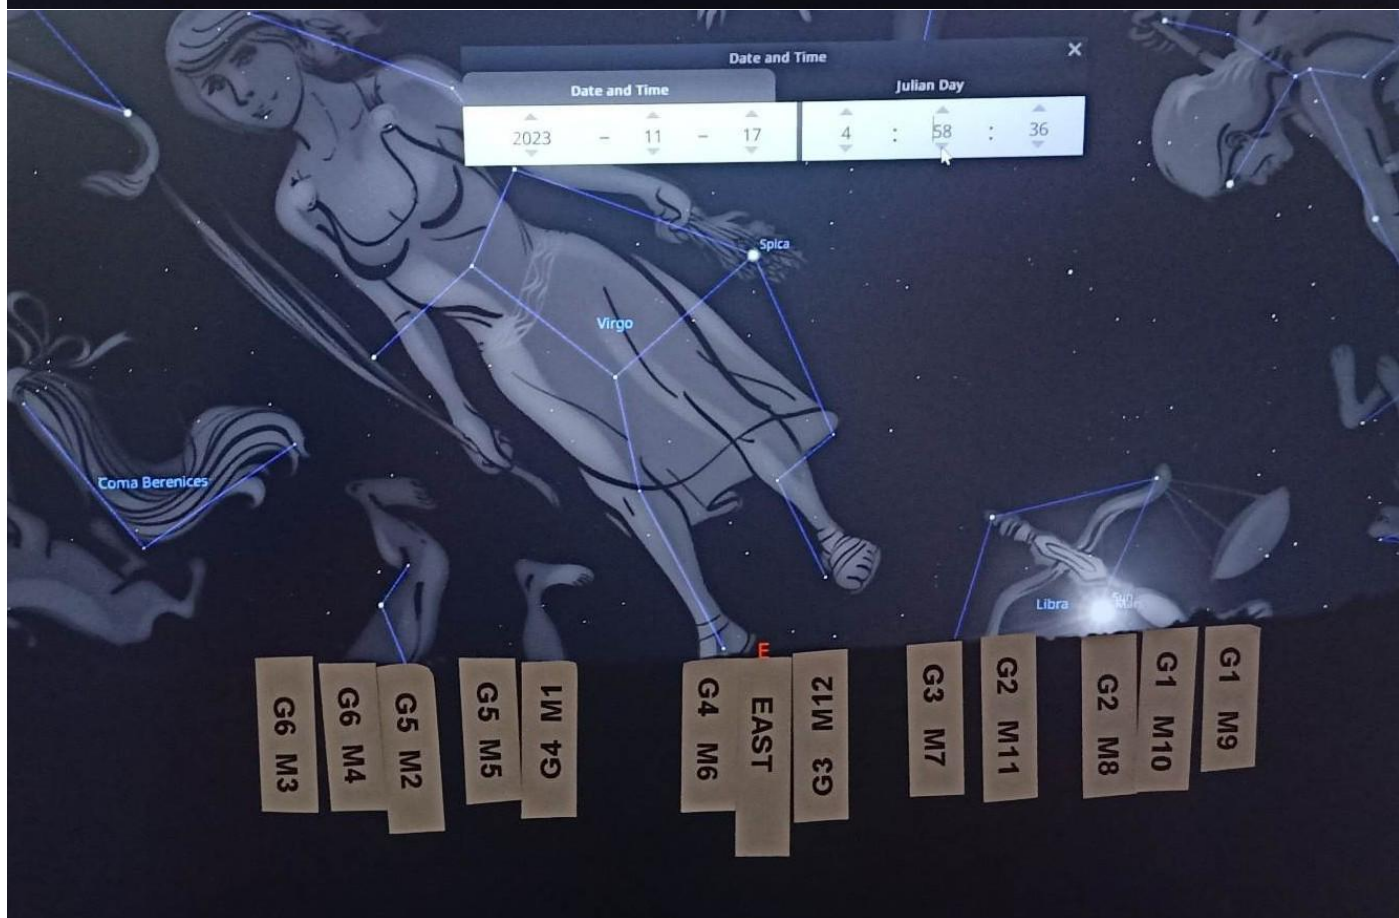

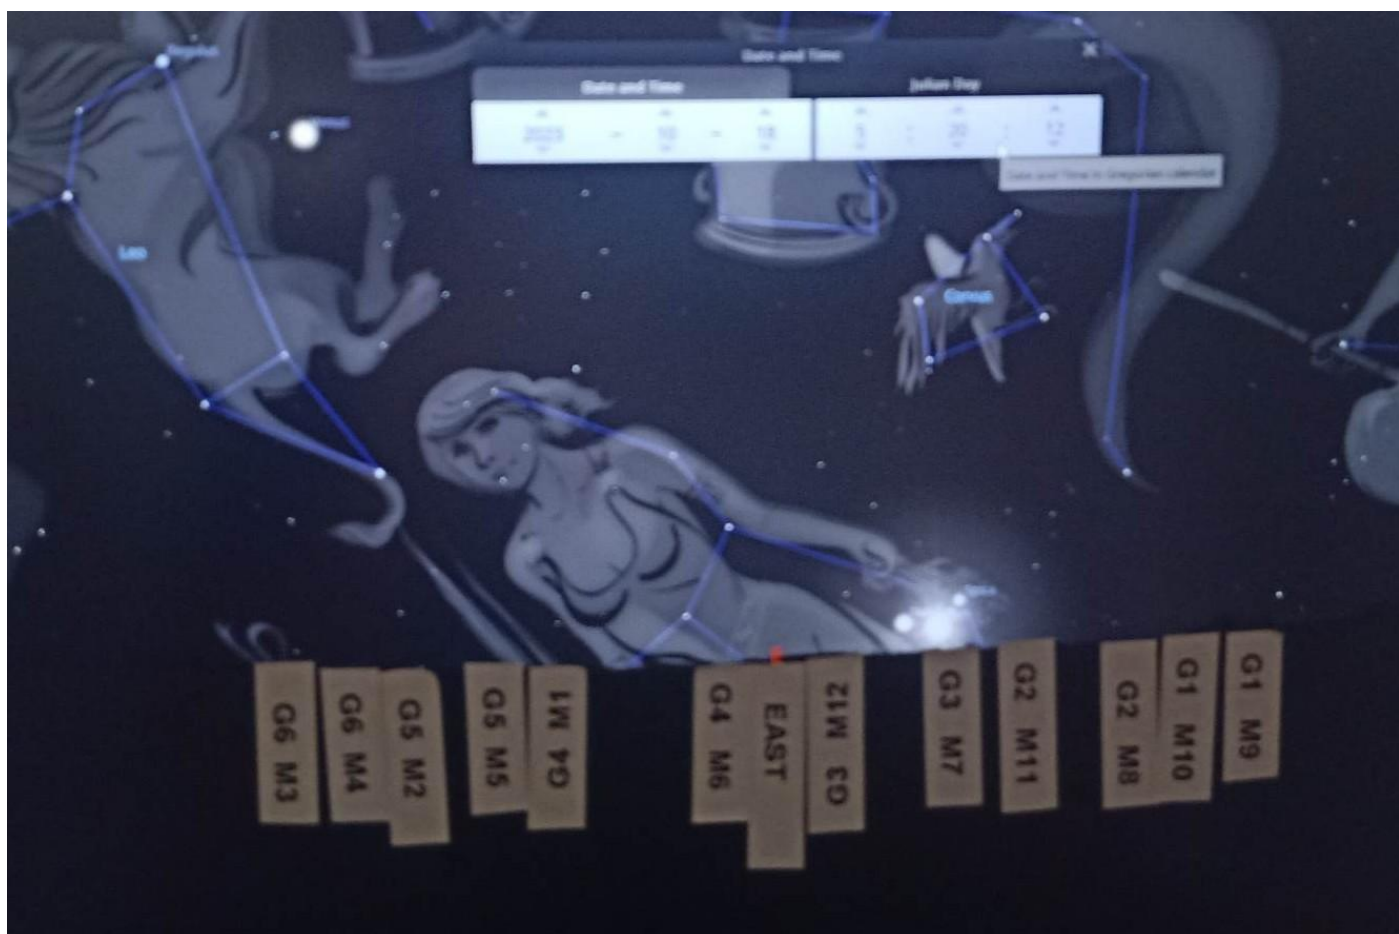

NOTE: Please remember that Stellarium is just a guide and is still reliant on the gregorian calendar of 365 days with every 4th leap year of 366 days. If they just used 364 days, they wouldn't need leap years etc. Trust the Father in His matters. He has given us His operation manual and we just need to follow it.

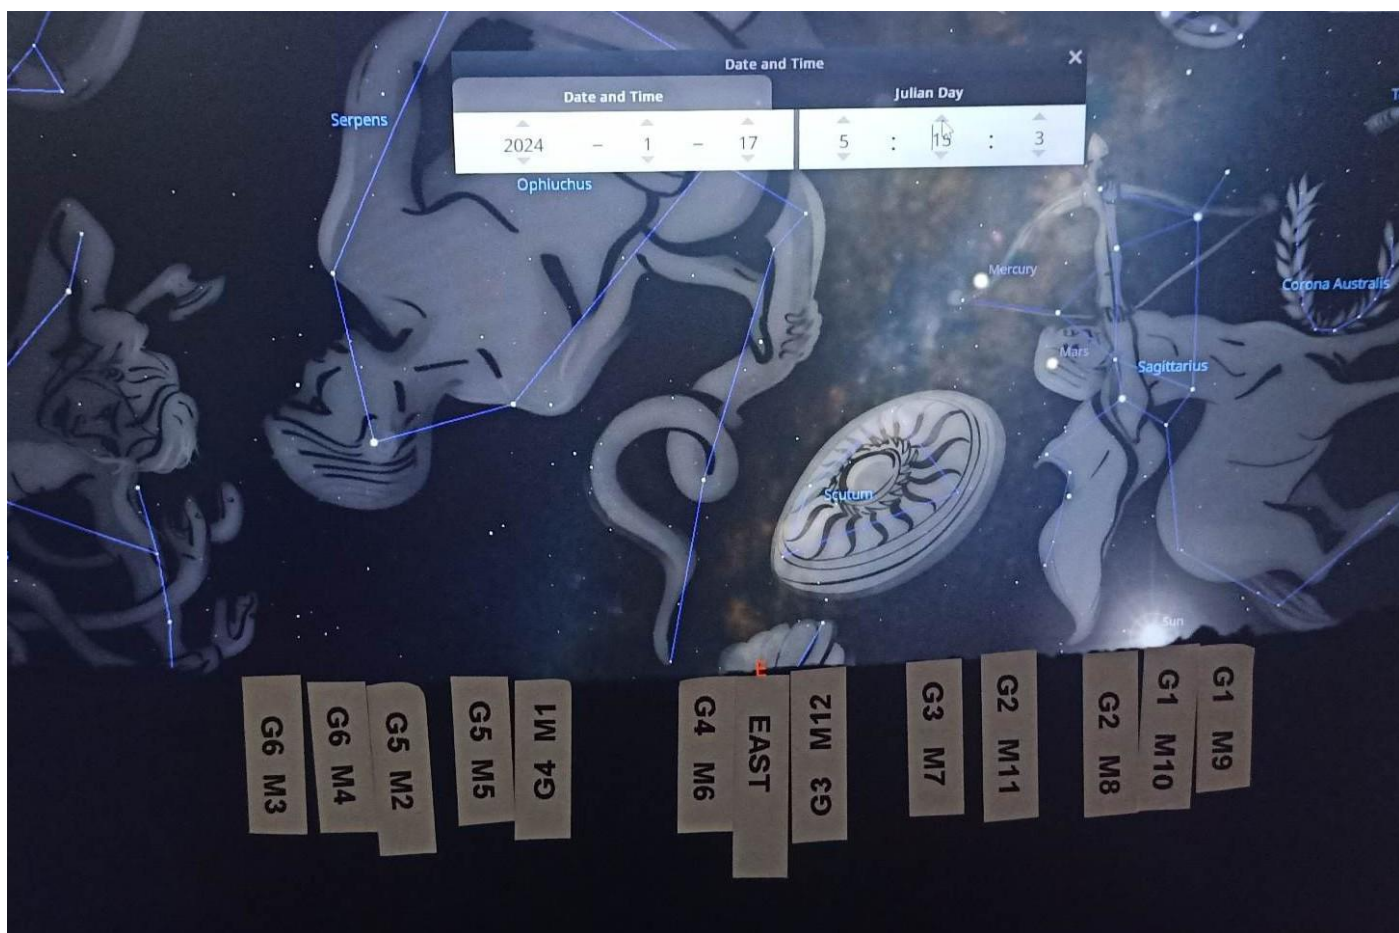

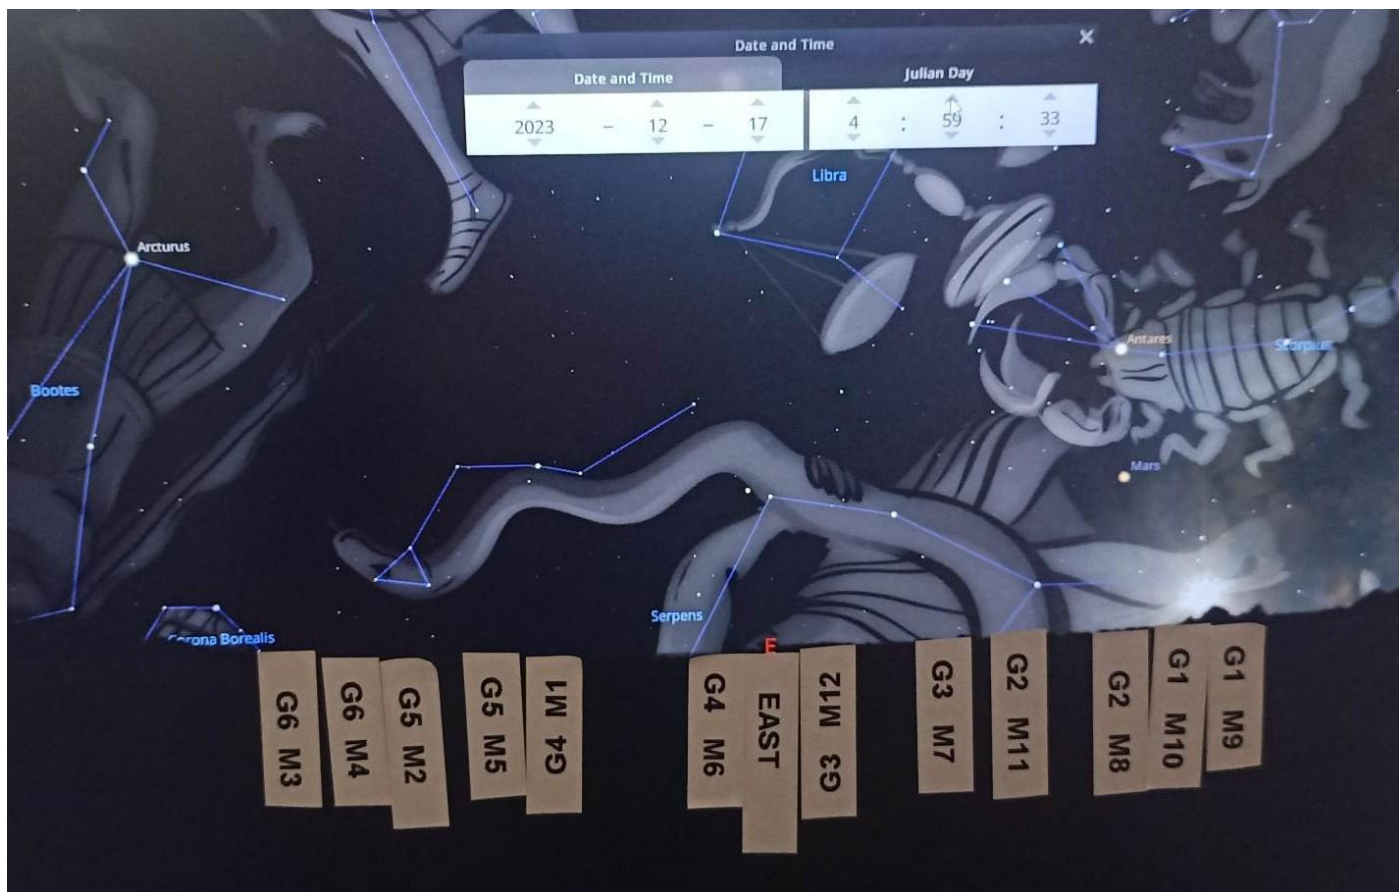

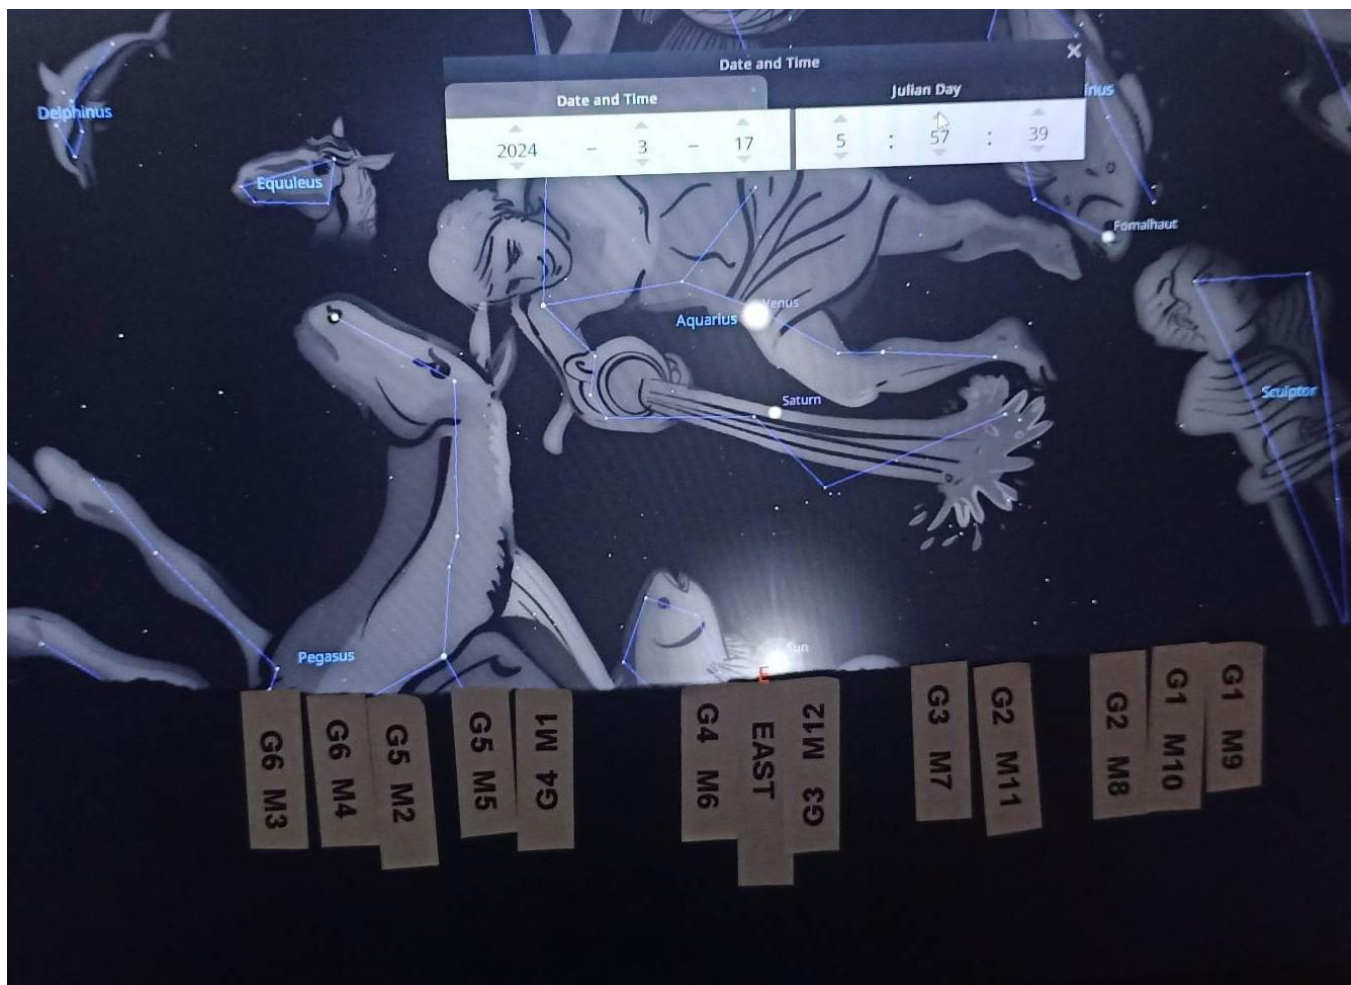

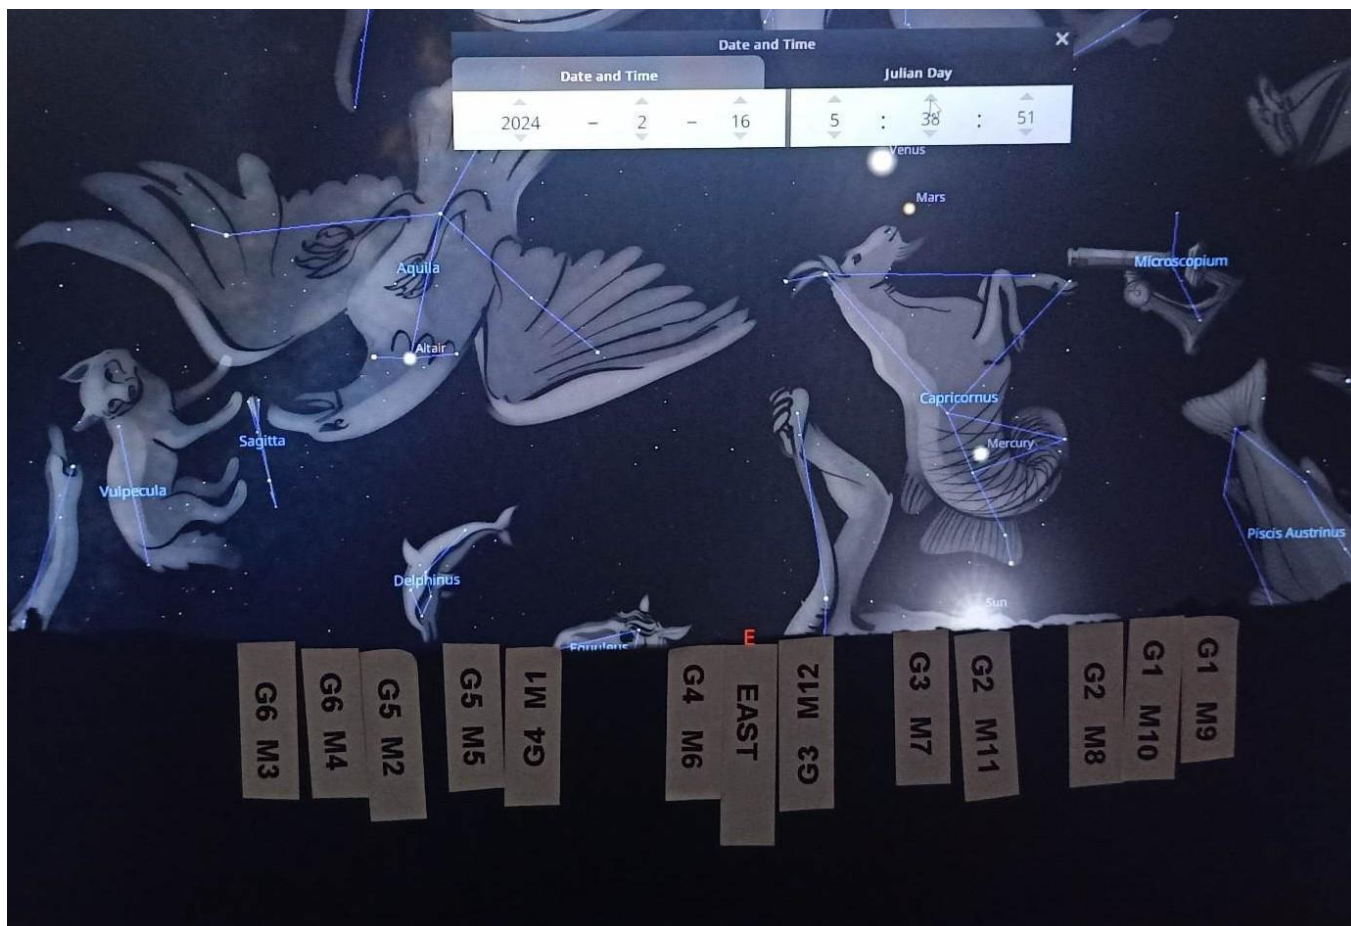

17.10.23

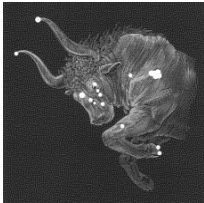

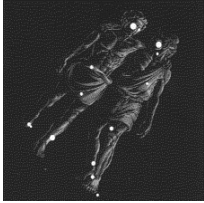

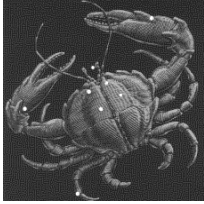

ASTROLOGICAL (PAGAN) VERUS ASTRONONMICAL (YAHWEH)

Astronomy is a hard science. The dictionary defines it as a branch of science that deals with celestial objects, outer space, and the vast physical universe. Astronomers use observable facts and scientific methods to discover truths about the cosmos.

Astrology is a belief system. It's the idea that star alignments have mystical properties that often guide human behavior. Astrologists use the cosmos to predict events, actions, and possibilities based on the belief system, but it's not rooted in scientific fact. The number of constellations in the Western zodiac comes from the cycles of the Moon (Not the sun) which orbits the Earth 12.4 times a year.

To be noted is that the Astrological list of constellations/star signs is different to the Astronomical list. The most notable aspect of astrology is the zodiac (sounds VERY similar to ZADOK) a system that divides the heavens based on constellations and offers daily horoscopes based on these star signs. There are 12 zodiac signs in astrology, each related to a specific time of year. Here are the signs:

ASTROLOGICAL		ASTRONOMICAL	
Constellation	Dates	Constellation	Dates
Aries	March 21 - April 20		April 19 - May 13 (25 days)
Taurus	April 21 - May 21		May 14 - June 19 (37 days)
Gemini	May 22 - June 21		June 20 - July 20 (31 days)
Cancer	June 22 - July 22		July 21 - August 9 (20 days)
Leo	July 23 - August 23		August 10 - September 15 (37 days)

Virgo	August 24 - September 23		September 16 - October 30 (45 days)
Libra	September 24 - October 23		October 31 - November 22 (23 days)
Scorpius	October 24 - November 22		November 23 - November 29 (7 days)
Ophiuchus	Not recognized as a sign of the zodiac by astrologers	Ophiuchus	November 30 - December 17 (18 days)
Sagittarius	November 23 - December 21		December 18 - January 18 (32 days)
Capricornus	December 22 - January 20		January 19 - February 15 (28 days)
Aquarius	January 21 - February 19		February 16 - March 11 (24 days)
Pisces	February 20 - March 20		March 12 - April 18 (38 days)

The astrological calendar has all the dates occurring in line with the equinox and thus all a month early. The astrological calendar is pagan and created by man. The astronomical is based on the actual movement of the luminaries which can be clearly seen in the Stellarium program (Be careful tho it uses the pagan gregorian dates) or preferably simply by looking in the sky for ourselves and watching as we are called to do.

Astrology has the year starting on March 21, 2023 (equinox date) whereas astronomy starts on April 19 2023 – which is also the day the sun moves into the Ram (pagan aries) constellation. 14 days later the sun is at the feet of the Ram (pagan aries) ready for Pesach and is the exact same every 364 days. Similarly, so at this time we come to the feet of our great shepherd and remember all he gave for us to ransom us from sin and death.

We have been constantly told in our 'christian' walk that star signs are evil and not to be followed. This is true for the dark false astrological form of them utilized to predict fortunes etc. However, the astronomical star signs are made by Yahweh and referenced in scripture with witnesses plus also listed in Genesis and Enoch for signs etc. They are literally the Revelations prophecies revealed in the sky signaling what is happening or to come below just as with the birth of our Messiah.

The very luminaries we have been warned against by the church are in fact an essential key to knowing when we are also at the correct gate – the 4th gate to begin the year. They are also mentioned in scripture by our Father Himself when He asks us if we can comprehend them.

Job 9:9

² "Indeed, I know that this is so; but how can a human win a case against God?

³ Whoever might want to argue with him could not answer him one [question] in a thousand.

⁴ His heart is so wise, his strength so great—who can resist him and succeed?

⁵ "He moves the mountains, although they don't know it, when he overturns them in his anger.

⁶ He shakes the earth from its place; its supporting pillars tremble.

⁷ He commands the sun, and it fails to rise; he shuts up the stars under his seal.

⁸ He alone spreads out the sky and walks on the waves in the sea.

⁹ He made the Great Bear, Orion, the Pleiades and the hidden constellations of the south.

¹⁰ He does great, unsearchable things, wonders beyond counting.

¹¹ He can go right by me, and I don't see him; he moves past without my being aware of him.

Isaiah 40:26 "Lift up your eyes on high and behold Who hath created these things; that brings out their host by number: He calls them all by names by the greatness of His might, for that He is strong in power; not one faileth."

Ephesians 5:8

"For you were once darkness, but now you are light in the Messiah. **Live as children of light.**"

Luke 21:25-28 "And there shall be signs in the sun, and in the moon, and in the stars; and upon the earth distress of nations, with perplexity; the sea and the waves roaring...And when these things begin to come to pass, THEN LOOK UP, AND LIFT UP YOUR HEADS; for your redemption draweth nigh."

Psalms 19: 1-6

The heavens declare the glory of God; the skies proclaim the work of His hands. Day after day they pour forth speech; night after night they reveal knowledge. Without speech or language, without a sound to be heard, their voice has gone out into all the earth, their words to the ends of the world. In the heavens He has pitched a tent for the sun. Like a bridegroom emerging from his chamber, like a champion rejoicing to run his course, it rises at one end of the heavens and runs its circuit to the other; nothing is deprived of its warmth.

Pleiades

The Pleiades is a small constellation of stars shown in this picture. There are only five prominent stars, but a good telescope shows many more. To locate the group with the naked eye, one must follow along the line to the right of the three stars that form the belt of Orion, and you will pass taurus, and then see the unmistakable blue blur, which is the Pleiades.

Orion's Belt

Most people will have heard of the Orion constellation. It was seen by the ancients as a huge giant in the heavens and his belt was seen as a row of **three bright stars**, with the **sword** below. The star representing his **head** is the huge star **Betelgeuse**, a **reddish** colour.

Mazzaroth

What about Mazzaroth? It is far too large to be shown here, but it is an ancient Hebrew name for the Signs of the Zodiac, meaning a Circle of Animals, a surrounding belt of twelve constellations.

The Great Bear

The reference to the Bear with its cubs is appropriate to the two constellations Ursa Major and Ursa Minor, otherwise known as the Great Bear and Little Bear, constellations which are only visible in the northern skies. Each is formed by **seven stars**. The one ending the tail of Ursa Minor, is actually the Pole Star, or **Polaris**, seen at the far right of the adjacent picture.

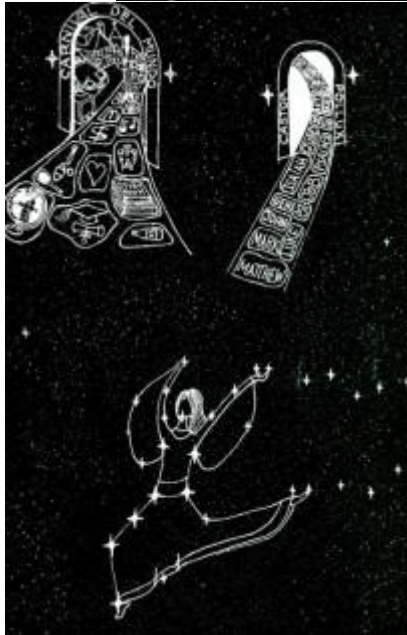

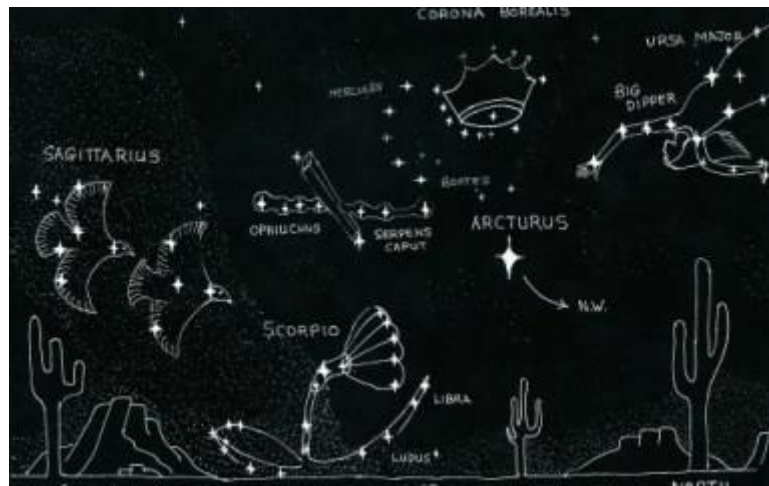

We believe just as the Magi saw the signs in the sky and following the stars in the sky to find the messiah so we too can look to the skies to see the times of His imminent return and as the stars show above what is happening below.

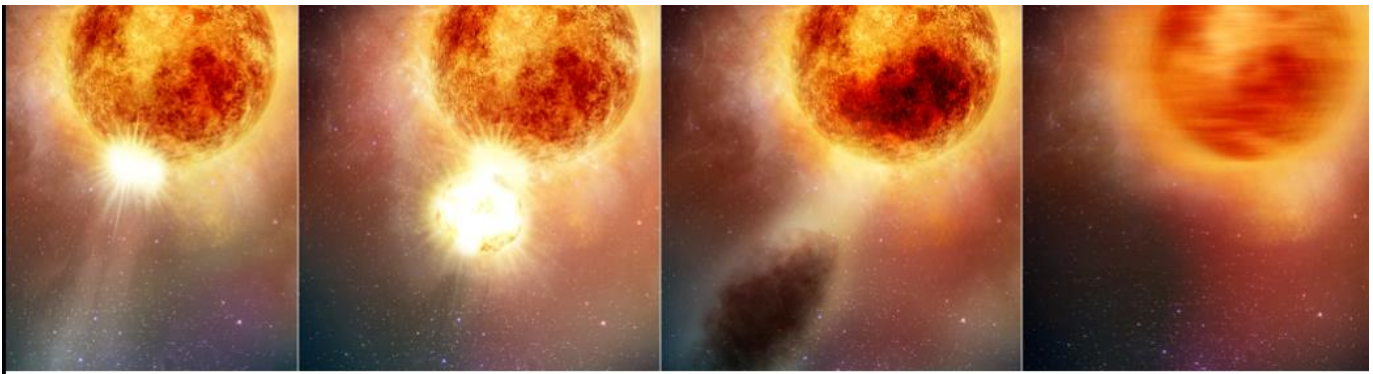

Was *Arcturus* the actual star which the wise followed 2,000 years ago? Nobody knows for sure. And yet, it seems to be spoken of in Scripture as if it was that very star... "*Can you guide Arcturus with his sons?*" Job 38:32.

Orion the great soldier Orion can be seen below girded with His belt of the 3 great stars (Father, Son and Ruach) battling the great red dragon.

Aug 12, 2022

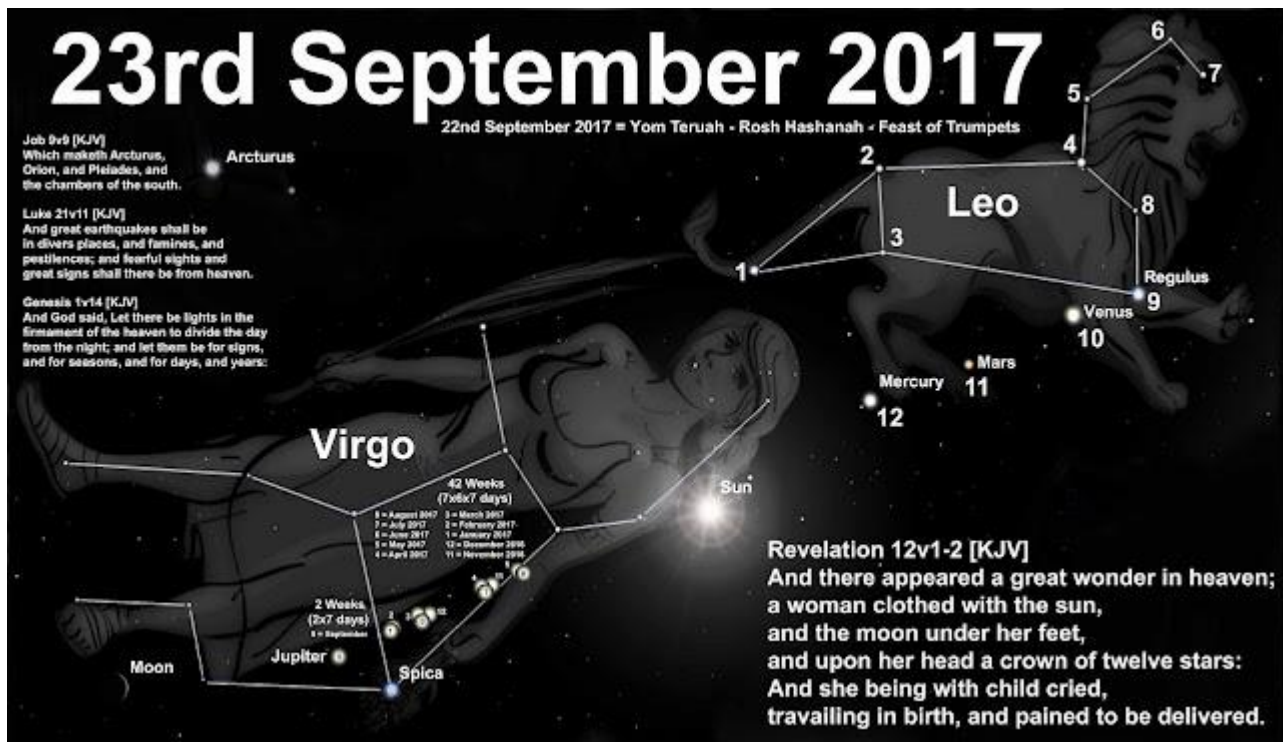

Hubble Sees Red Supergiant Star Betelgeuse Slowly Recovering After Blowing Its Top

Analyzing data from NASA's Hubble Space Telescope and several other observatories, astronomers have concluded that the bright red supergiant star Betelgeuse quite literally blew its top in 2019, losing a substantial part of its visible surface and producing a gigantic Surface Mass Ejection (SME). This is something never before seen in a normal star's behavior.

Our Sun routinely blows off parts of its tenuous outer atmosphere, the corona, in an event known as a Coronal Mass Ejection (CME). But the Betelgeuse SME blasted off 400 billion times as much mass as a typical CME!

The monster star is still slowly recovering from this catastrophic upheaval. "Betelgeuse continues doing some very unusual things right now; the interior is sort of bouncing," said Andrea Dupree of the Center for Astrophysics | Harvard & Smithsonian in Cambridge, Massachusetts.

For more excellent info on the astronomical star sign please go to <https://theheavensdeclare.net/>

DAYS IN A YEAR AND INTERCALATION OF 4 DAYS

Enoch 75:1-3 states that they are in the 4th, 6th, 7th and 1st portals (1st, 4th, 7th and 10th month) It also states that men won't count these 4 days in the count of days and by not doing this you lose the 7 day a week cycle and the years go astray. On the contrary starting each of the 4 seasons with the intercalation day and NOT counting it in the count Jubilees gives a clear warning that you will fall behind 10 days each year and make a Qodesh day unclean and an unclean day Qodesh. All days must be counted.

The calendar should be something simple as we do not serve an Elohim of confusion. We also believe we should be able to follow the calendar without technology or reliance on man. We need ONLY to rely on Him for our calendar and for well everything...walking in faith and not by sight.

A huge realization for us was Luke 16:13 and Matthew 6:24 which hit us hard in regards to attempting to compare Yahweh's calendar with the Gregorian calendar. When we determined to stop doing this that is when the understanding came. It truly is what He means when He says to come out of the world.

"No servant is able to serve two masters, for either he shall hate the one and love the other, or else he shall cling to the one and despise the other. You are not able to serve Elohim and mammon."

Matthew 7:13-14

13. "Enter in through the narrow gate! Because the gate is wide-and the way is broad-that leads to destruction, and there are many who enter in through it. 14. Because the gate is narrow and the way is hard pressed which leads to hai (life), and there are few who find it."

Luke 16:13

13. "No servant is able to serve two masters, for either he shall hate the one and love the other, or else he shall cling to the one and despise the other. You are not able to serve Elohim and mammon."

SHABBAT, WEEKS AND YEARS

Our greatest desire was to truly know which day of the week was Shabbat. We had initially questioned it falling on pagan Saturday given its link to Saturnalia etc. We were concerned that we saw calendars where the dates after equinox were manually manipulated to start on Wed being the 4th day just so they could have Shabbat on a Saturday.

We have found that the year starts on the 4th day of the week (wed) and thus Shabbat as the 7th day of the week falls on pagan named saturday when following the above method of determining Day 1. The other amazing thing we found was that Yom Teruah, Yom Kippur and Sukkot land in the star sign of the scales (pagan libra) declaring his right rulings and the need to be right before Him.

The calendar is a straight 364-day calendar. The 4 intercalation days are counted into the count of the 364 days. There are none left out. There is none ever added. When you do not try to fit into the Gregorian calendar then you will find that every start of the year begins perfectly on the 4th day of the week- perfect easy 7-day cycles.

You simply cannot understand and follow YAHWEH's calendar when we try to make it work within the Gregorian calendar, just as we cannot continue to follow His feasts the pagan timeframes and customs of man (Talmud/ Jewish etc). We have been in great error we believe actually even doing the feasts thus far on the incorrect days making an unclean day Qodesh. We would earnestly encourage you to ask our Father for forgiveness in doing so as curses are attached to these activities if not completed in the correct manner and days.

1st day of the 1st month

14th day of the 1st month (Pesach)

YAHWEH'S AMAZING TIMEPIECE IN THE SKY- THE NON-PAGAN VERSION

We are children of the day and not of the night. The darkness is also our spiritual blindness – veils on the eyes. When He removes them, we receive sight and light- both physical and spiritual. All of his miracles with the blind were showing us this. When Adam and Eve were naked or uncovered after their sin it was because they were in spiritual darkness. The first animal sacrifice then needed to occur to COVER their sins – this is the animal fur they were then given as clothing to cover their physical nakedness. Torah was in place right back then where the blood of the animals was required to cover their sin spiritually and Abraham was said to be righteousness according to his belief/ obedience.

In the beginning we were trying to squeeze the 18 parts into the traditional clock of 24 parts which didn't work very well as it didn't hold any of His marvelous patterns, we see all through His correct calendar. We quickly realized tho that Yahweh does not want these 'night' or 'dark' parts to be counted or seen in His clock.

We needed to get rid of the world pagan gregorian mindset and start afresh in order to figure out how to understand these new time 'parts' in Enoch.

The only times mentioned in the scriptures are midnight, 3rd hour, 6th hour, 9th hour and the 11th hour. No other times are needed on His timepiece.

Our clock did not line up to the total 18 'parts' as outlined in Enoch 72 and instead of the standard pagan 12-hour day/night period it was 9 parts and instead of 24-hour period as per our traditional clock / watch it was 18.

Scripture says he will come back 'ABOUT' the 11th hour for His workers. The Passover death of the firstborn happened AFTER midnight in Egypt. A dark time that is not represented we believe on the clock of Yahweh.

So too the sky went dark from the 6th to the 9th hour as our Messiah was crucified on the darkest day of the worlds history. He endured spiritual and physical darkness in our place as a ransom for us so that we are free from the chains of sin and death.

The disciples were all together in the upper room in the 3rd hour. A time of light and spiritual awakening as they were given the Ruach to walk inconstant spiritual light. It was the early morning as it was the justification that Peter gave to those who said they appeared drunk speaking in other tongues which were recognized by all who were there from other nationalities and tongues.

So too Miryam came to the tomb on one of the shabbaths when it was still 'dim.' She came into darkness (physical and spiritual) to behold the light (truth) of the risen messiah.

John 20:1 And on one of the Shabbathoth, Miryam from Magdala came to the tomb in the morning, when it was still dim, and saw that the stone had been removed from the tomb.

The scripture instructs us to observe Pesach (Passover) in the evening and The Day of Atonement from the evening. This is not to be used to prove that shabbat starts in the evening as many cling to. Rather it is written as it is an **exception** to what should be the known practice for shabbat with the day always starting in the morning- in the light- physically and spiritually as we are told that keeping Shabbat is the sign that we are walking in the light.

Both Pesah and Day of Atonement are the ONLY 2 feast that are concerned with repentance, forgiveness and atonement. They are both about the same theme of coming out of darkness (physical and spiritual) to light. We start in spiritual darkness and end both feasts in spiritual light. In right standing with our creator.

We believe this spiritual concept shows that shabbat does NOT start on Friday evening. The start to the day is in the 1st hour at the break of daylight. An evening start to shabbat is a sign that you are in physical and spiritual darkness and not children of the light.

1 Chronicles 9:27

*They spent the **night around the house of God, because the watch was committed to them; and they were in charge of opening it morning by morning.***

Luke 11:7

*and from inside he answers and says, 'Do not bother me; **the door has already been shut and my children and I are in bed; I cannot get up and give you anything.**'*

John 9:4

*I must work the works of him that sent me, **while it is day: the night cometh, when no man can work.***

John 8:12

"I am the light of the world. Whoever follows me will never walk in darkness but will have the light of life".

*Isaiah 9:2 "The people walking in darkness have **seen a great light**; on those living in the land of deep darkness a light has dawned".*

*(Proverbs 4:19). Moses compares this state of sin and disobedience to groping about like "a blind person in the dark" (Deuteronomy 28:29). One of Job's friends speaks of those who are lost in spiritual darkness: **"Darkness comes upon them in the daytime; at noon they grope as in the night" (Job 5:14).***

*Luke 18:35-43 As Jesus came near the city of Jericho, a blind man was sitting beside the road, begging. When he heard the people coming down the road, he asked, "What is happening?" They told him, "Jesus, from Nazareth, is going by." The blind man cried out, "Jesus, Son of David, have mercy on me!" The people leading the group warned the blind man to be quiet. But the blind man shouted even more, **"Son of David, have mercy on me!"** Jesus stopped and ordered the blind man to be brought to him. When he came near, Jesus asked him, "What do you want me to do for you?" He said, "Yahweh, **I want to see.**" Jesus said to him, "Then see. **You are healed because you believed.**" At once the man **was able to see**, and he followed Jesus, thanking God. All the people who **saw** this praised God.*

The clock of Yahweh has no representation on its face of the 6 hours prior to dawn. It moves directly from midnight to the first hour to give us the 18 parts as outlined in Enoch. In it there is NO darkness.

KING HEZEKIAH: 2 KINGS 20:2-7, 2 Chronicles 32:24, ISAIAH 38:4

King Hezekiah was provided with a SIGN from Yahweh which changed the count of days potentially. A witness that His word is true.

2 KINGS 20: 2-7 **2**Then Hezekiah turned his face to the wall and prayed to the YAHWEH, **3**saying, "Please, O YAHWEH, remember how I have walked before You faithfully and with wholehearted devotion; I have done what was good in Your sight." And Hezekiah wept bitterly. **4**And the word of the YAHWEH came to Isaiah, saying, **5**"Go and tell Hezekiah that this is what the YAHWEH, the God of your father David, says: 'I have heard your prayer; I have seen your tears. Behold, I will add fifteen years to your life. **6**And I will deliver you and this city from the hand of the king of Assyria. I will defend this city. **7**This will be a sign to you from the YAHWEH that He will do what He has promised: **8**I will make the sun's shadow that falls on the stairway of Ahaz go back ten steps.'" So, the sunlight went back the ten steps it had descended.

2 Chronicles 32:24 In those days Hezekiah became mortally ill. So he prayed to the YAHWEH, who spoke to him and gave him a sign.

Isaiah 38:4 And the word of the YAHWEH came to Isaiah, saying, **5**"Go and tell Hezekiah that this is what the YAHWEH, the God of your father David, says: 'I have heard your prayer; I have seen your tears. Behold, I will add fifteen years to your life. **6**And I will deliver you and this city from the hand of the king of Assyria. I will defend this city. **7**This will be a sign to you from the YAHWEH that He will do what He has promised: **8**I will make the sun's shadow that falls on the stairway of Ahaz go back ten steps.'" So the sunlight went back the ten steps it had descended.

There are 70 Steps in the temple. One for each language and nation. The sunlight was said to have gone back 10 steps or 10 degrees in some other translations. This 10 degrees / steps gave him 15 more years of life. Does this account for the additional 4 intercalation extra days added (and counted) to the original 360 day calendar? This is just our own personal assumption for your to explore as a potential action.

360 days = 1 year

360 minutes = 1 day

360 degrees = 1 full circle

10 degrees = 1.66666667 Minutes

360 degrees = 60 minutes (1 HOUR)

360 divided by 1.66666667 = **216**

1.66666667minutes extra every hour x 24 hours in a day x 360 days in a year x 15 years is **216,000**

72,000 DNA nucleotides in a single DNA strand. A human has a double helix which equals 144,000. Add an extra stand for 216,000 mixing of iron and clay. Also 144,00 – Rev 4 and 7. 12000 from the 12 tribes.

Are those extra 15 years stolen back from the grip of death in those days now needing to be repaid? Is this the reason for the short season needing to be completed in Revelation 20.

JOB AND HIS BIRTHDAY

Job 3: 1-4 After this Job opened his mouth and cursed the day of his birth. And Job spoke, and said, "Let the day perish on which I was born, and the night it was said, "A male child has been taken conceived". Let that day be darkness. Let not Eloah from above seek for it, nor let light shine upon it. Let darkness and the shadow of death buy it back, let a cloud dwell on it, let all that blackens the day frighten it. That night – let darkness seize it. Let it not be included among the days of the year, let it not come into the number of months. Look let

that night be silent! Let no singing come into it! Let those curse it who curse the day, who are ready to stir up Leviathan. Let the stars of its twilight be dark. Let it wait for light, but have none. And let it not see the eyelashes of dawn.

We believe that Yahweh was faithful to Job and removed the day of his birth from the calendar. So too he removed the night of his conception permanently from the clock that no record of this night watch of 6 hours was to ever appear on Yahweh's clock whilst it does continue to appear on the pagan clock of man.

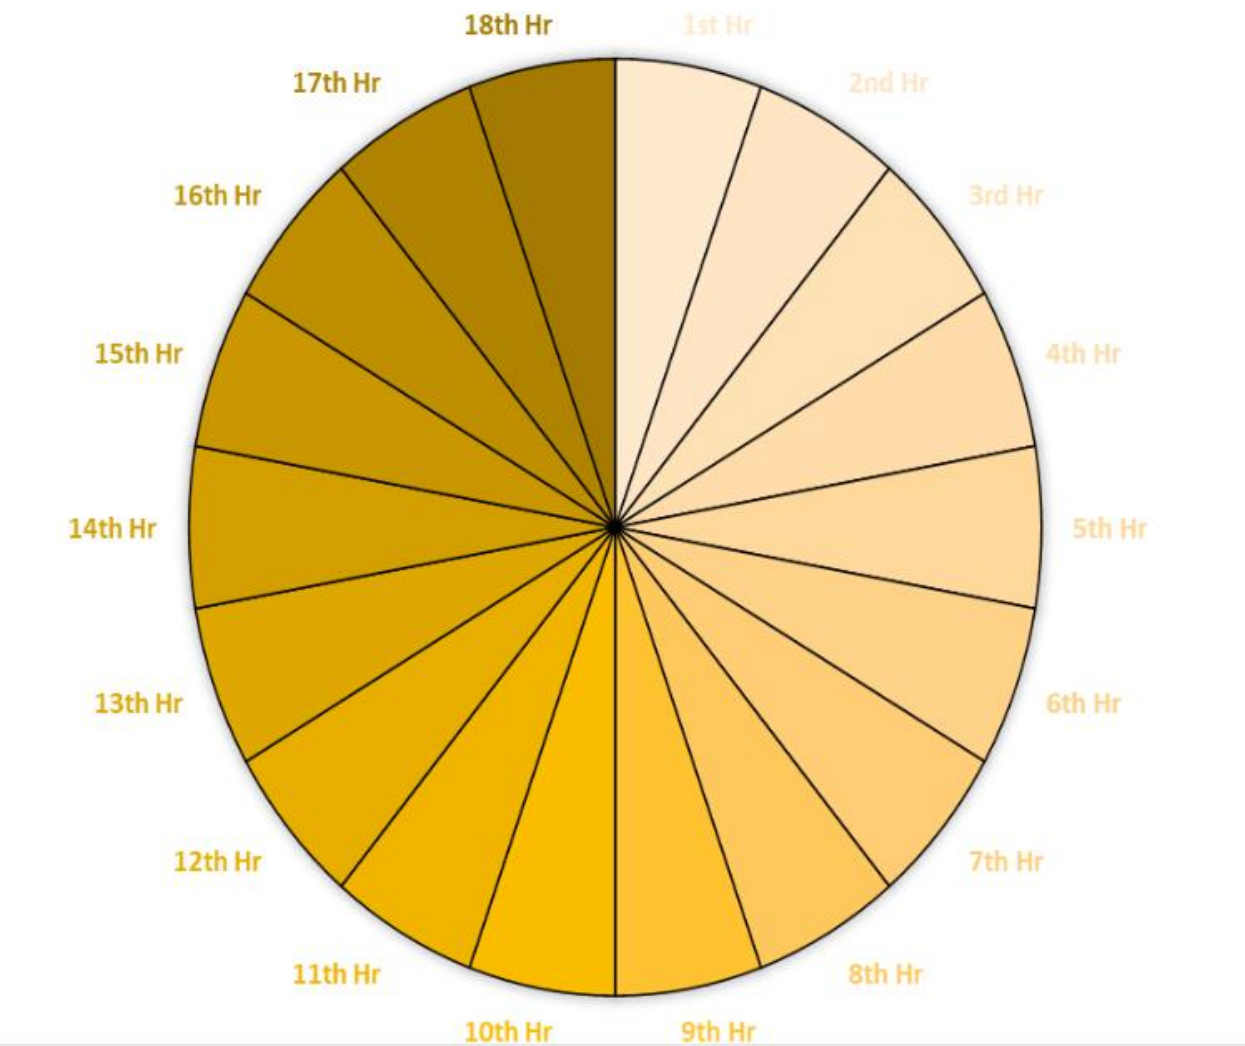

JOSHUA: (Jasher 88: 59-65 and Joshua 10:9-14)

*Joshua 10: 9-14: 10:9 Joshua therefore came unto them suddenly and went up from Gilgal all night. 10:10 And the YAHWEH discomfited them before Israel, and slew them with a great slaughter at Gibeon, and chased them along the way that goeth up to Bethhoron, and smote them to Azekah, and unto Makkedah. 10:11 And it came to pass, as they fled from before Israel, and were in the going down to Bethhoron, that the YAHWEH cast down great stones from heaven upon them unto Azekah, and they died: they were more which died with hailstones than they whom the children of Israel slew with the sword. 10:12 Then spake Joshua to the YAHWEH in the day when the YAHWEH delivered up the Amorites before the children of Israel, and he said in the sight of Israel, Sun, stand thou still upon Gibeon; and thou, Moon, in the valley of Ajalon. **10:13 And the sun stood still, and the moon stayed**, until the people had avenged themselves upon their enemies. **Is not this written in the book of Jasher? So the sun stood still in the midst of heaven, and hasted not to go down about a whole day.** 10:14 And there was no day like that before it or after it, that the YAHWEH hearkened unto the voice of a man: for the YAHWEH fought for Israel.*

The witness to the above happening is found in Jasher.....

*Jasher 88:59-65 And Joshua and all the fighting people went up from Gilgal, and Joshua came suddenly to them, and smote these five kings with a great slaughter. 60 And the Yahweh confounded them before the children at Israel, who smote them with a terrible slaughter in Gibeon, and pursued them along the way that goes up to Beth Horon unto Makkedah, and they fled from before the children of Israel. 61 And whilst they were fleeing, the Yahweh sent upon them hailstones from heaven, and more of them died by the hailstones, than by the slaughter of the children of Israel. 62 And the children of Israel pursued them, and they still smote them in the road, going on and smiting them. 63 And when they were smiting, the day was declining toward evening, and Joshua said in the sight of all the people, Sun, stand thou still upon Gibeon, and thou moon in the valley of Ajalon, until the nation shall have revenged itself upon its enemies. 64 And the Yahweh hearkened to the voice of Joshua, and the sun stood still in the midst of the heavens, and it stood still **six and thirty moments**, and the moon also stood still and hastened not to go down a whole day. 65 And there was no day like that, before it or after it, that the Yahweh hearkened to the voice of a man, for the Yahweh fought for Israel.*

ENOCH 72 CLOCK

THE CALENDAR FOR YOUR CONSIDERATION: The calendar for this year has a pagan day start of the 19.4.23. Passover starts on 2.5.23. Yeshua rose from the grave on the 6.5.23.
